

Property PA makes things happen by connecting local property owners with local tradespeople. For the customer this means that they can get on with life whilst their Property PA does the legwork.

To make this successful, I am looking to build strong relationships with local tradespeople. Being able to recommend tradespeople who have a proven track record in delivering a quality outcome at a good price, will ensure the customer enjoys the process and the finished product.

Here is how it will all work;

The Customer engages my services to refer to them Service Providers who can undertake the services they require. The cost for this (to the Customer) is \$49

If the Customer wishes to engage the services of the Service Provider, the Customer will then deal directly with the Service Provider.

Where a Service Provider is engaged by the Customer a Referrer's Fee will be payable by the Service Provider to Property PA. Refer to the table below.

During this referral process, I (the Referrer) do not make any commitment to the Customer on the Service Providers behalf as to an estimate of cost, etc and the Service Provider acknowledges that they will be responsible for negotiating directly with and entering into any agreement directly with the Customer; as I am simply in the business of referring Customers to Service Providers.

Referrer's Fees:	<p>\$10.00 (Ten AUD) inclusive of GST flat fee per referral of a Customer to the Service Provider for any work performed up to and including the value of \$500.00 calculated on the total cost of the Services (materials and labour);</p> <p>or</p> <p>3% Referral Fee inclusive of GST per referral of a Customer to the Service Provider for any work performed over and above the value of \$500.00 calculated on the total cost of the Services (materials and labour) with a maximum Referral Fee of \$500.00 on any one Service Order; as applicable.</p>
